## NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three month period ended March 31, 2018

(Unaudited, Prepared by Management)

---

### 1. NATURE AND CONTINUANCE OF OPERATIONS

Endurance Gold Corporation (the "Company") was incorporated under the *Canada Business Corporations Act* on December 16, 2003 and continued into British Columbia on August 16, 2004. The head office and principal address of the Company is at Suite 520, 800 West Pender Street, Vancouver, British Columbia, Canada V6C 2V6. The Company's registered address and records office is 2600 Oceanic Plaza, 1066 West Hastings Street, Vancouver, British Columbia, Canada, V6E 3X1.

The Company is engaged in the exploration and development of mineral properties in North America and has not yet determined whether its properties contain ore reserves that are economically recoverable. The Company has not generated any revenue from operations and will need to seek additional financing to meet its exploration and development objectives. These condensed consolidated interim financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

For the three months ended March 31, 2018, the Company reported a net loss of \$2,680,326 and as of that date the Company's deficit was \$4,761,420. The Company's net working capital position at March 31, 2018 was \$5,086,290, inclusive of marketable securities with a fair value of \$5,195,848. If the Company does not or cannot sell a portion or all of the marketable securities at current market values, it may have to raise additional funds to continue operations and to complete its 2018 exploration programs. While the Company has been successful in the past in raising capital, there is no assurance that such financing will be available on a timely basis and under terms acceptable to the Company.

### 2. BASIS OF PREPARATION

#### a) Statement of Compliance

These unaudited Condensed Interim FS have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including International Accounting Standard 34 ("IAS 34") *Interim Financial Reporting*. These unaudited Condensed Interim FS include the financial statements of the Company and its wholly-owned subsidiary.

These unaudited Condensed Interim FS were authorized for issue by the Audit Committee and Board of Directors on May 24, 2018 and should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2017.

The policies applied in these unaudited Condensed Interim FS are consistent with the policies disclosed in Notes 2 and 3 of the Company's audited consolidated financial statements for the year ended December 31, 2017, with the exception of the following new accounting standard which the Company adopted and is effective for the Company's interim and annual financial statements commencing January 1, 2018:

- IFRS 9 *Financial Instruments* introduces new requirements for the classification and measurement of financial assets and liabilities. The Company determined the adoption of IFRS 9 did not have an effect on its financial statements.

### 3. FUTURE ACCOUNTING POLICY CHANGES ISSUED BUT NOT YET IN EFFECT

The following new standard is not yet effective and has not been applied in preparing the unaudited Condensed Interim FS for the three month period ended March 31, 2018. The Company is currently evaluating the potential impacts of this new standard.

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, Prepared by Management)

- IFRS 16, *Leases*, addresses accounting for leases and lease obligations and replaces the leasing guidance in IAS 17, *Leases*. The standard requires lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. The standard is effective for annual periods beginning on or after January 1, 2019 with early adoption permitted. The Company is currently evaluating the impact of the adoption of this amendments on its consolidated financial statements.

#### 4. MARKETABLE SECURITIES

Marketable securities consist of equity securities of an entity or entities over which the Company does not have control or significant influence.

liabilities of \$131,353. All of the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms.

#### *Market risk*

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk may arise from changes in market factors such as interest rate, foreign exchange rate and price risks.

#### (a) Interest rate risk

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term certificates of deposits issued by its banking institution. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its bank.

#### (b) Foreign currency rate risk

While the Company is domiciled in Canada and its capital is raised in Canadian dollars, a portion of its business is conducted in the United States of America. As such, it is subject to risk due to fluctuations in the exchange rate between the Canadian and US dollars. Management believes the foreign exchange risk derived from currency conversions is insignificant and therefore does not hedge its foreign exchange risk.

#### (c) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate or foreign currency risks. At March 31, 2018, the Company had marketable securities with a fair value of \$5,195,848. A  $\pm 10\%$  change in the share prices would affect the Company's consolidated financial statements by approximately \$519,585.

The net realizable values of the Company's marketable securities are also subject to impairment resulting from insufficient market liquidity. The extent of such potential impairment is not readily determinable.

## 10. CAPITAL MANAGEMENT

- to ensure sufficient financial flexibility to achieve the on-going business objectives including, but not limited to, pursuing the exploration of its exploration and evaluation assets, funding of future growth opportunities, and pursuit of new acquisitions; and
- to maximize shareholder return through enhancing the share value.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company manages its capital structure by issuing new shares, adjusting capital spending or disposing of assets. In addition, management of the Company's capital structure is facilitated through its financial and operational forecasting processes. The forecast of the Company's future cash flows is based on estimates of capital and operating expenditures, and other investing and financing activities. The forecast is regularly updated based on changes that the Company views as material to the accuracy of the forecast.
