1. NATURE AND CONTINUANCE OF OPERATIONS AND BASIS OF PRESENTATION

Endurance Gold Corporation (the "Company") was incorporated under the *Canada Business Corporations Act* on December 16, 2003 and continued into British Columbia on August 16, 2004. Its principal business activities are the exploration and development of resource properties. All of the Company's resource properties are located in Canada.

The Company is in the process of exploring its mineral properties and has not yet determined whether the properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for mineral properties and related deferred exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

These unaudited interim financial statements have been prepared by management on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future.

The accompanying unaudited interim financial statements have been prepared by management in accordance with generally accepted accounting principles ("GAAP") in Canada on a basis consistent with those outlined in the Company's audited financial statements for the year ended December 31, 2007. They do not include all of the information and disclosures required by Canadian GAAP for audited financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included in these financial statements. These unaudited interim financial statements should be read in conjunction with the most recent audited annual financial statements of the Company, including the notes thereto, copies of which are filed on the SEDAR website at www.SEDAR.com.

2. ADOPTION OF NEW ACCOUNTING POLICIES

Capital disclosures

Effective January 1, 2008, the Company implemented the new CICA Handbook Section 1535 "Capital disclosures". The section specifies the disclosure of (i) an entity's objectives, policies, and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such non-compliance. This new Section relates to disclosures and did not have an impact on the Company's financial results.

Financial instruments

Effective January 1, 2008, the Company implemented the new CICA Handbook Section 3862, *Financial Instruments – Disclosures*, which requires entities to provide disclosures in their financial statements that enable users to evaluate (a) the significance of financial instruments for the entity's financial position and performance; and (b) the nature and extent of risks arising from financial instruments to which the entity is exposed during the period and at the balance sheet date, and how the entity manages those risks. The principles in this section complement the principles for recognizing, measuring and presenting financial assets and financial liabilities in Section 3855, *Financial Instruments – Recognition and Measurement*, Section 3863, *Financial Instruments – Presentation*, and Section 3865, *Hedges*.

Effective January 1, 2008, the Company implemented the new CICA Handbook Section 3863, *Financial Instruments – Presentation*, which is to enhance financial statement users' understanding of the significance of financial instruments to an entity's financial position, performance and cash flows. This section establishes standards for presentation of financial instruments and non-financial derivatives. It deals with the classification of financial instruments, from the perspective of the issuer, between liabilities and equity, the classification of related interest, dividends, losses and gains, and the circumstances in which financial assets and financial liabilities are offset.

Assessing going concern

Effective January 1, 2008, the Company adopted the CICA Handbook Section 1400, which includes requirements for management to assess and disclose an entity's ability to continue as a going concern. This new Section relates to disclosures and did not have an impact on the Company's financial results.

3. NEW ACCOUNTING PRONOUNCEMENT

Goodwill and intangible assets

The Canadian Accounting Standards Board ("AcSB") issued CICA Handbook Section 3064 which replaces Section 3062, Goodwill and Other Intangible Assets, and Section 3450, Research and Development Costs. This new section establishes standards for the recognition, measurement, presentation and disclosure of goodwill subsequent to its initial recognition and of intangible assets. Standards concerning goodwill remain unchanged from the standards included in the previous Section 3062. The section applies to interim and annual financial statements relating to fiscal years beginning on or after October 1, 2008.

International financial reporting standards ("IFRS")

In 2006, the AcSB published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008, the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

(d) Stock-based compensation

The fair value of options reported as compensation expense during the period has been estimated using the Black-Scholes Option Pricing Model using the following assumptions:

	2008	2007
Description		
Expected dividend yield	0.0%	0.0%
Risk free interest rate	2.77%	4.18%
Expected stock price volatility	108.26%	119.41%
Expected life of options	2 years	3 years
Weighted average fair value	<u>\$0.0682</u>	<u>\$0.13</u>

Based on the foregoing, stock-based compensation expense of \$10,230 (2007 - \$29,854) was recorded for options that vested during the nine months ended September 30, 2008. The off-setting credit was recorded in Contributed Surplus.

Option pricing models require the input of highly subjective assumptions, particularly as to the expected price volatility of the stock. Changes in these assumptions can materially affect the fair value estimate and therefore it is management's view that the existing models do not necessarily provide a single reliable measure of the fair value of the Company's stock option grants.

8. FINANCIAL INSTRUMENTS AND RISK

The Company's financial instruments consist of cash, marketable securities, receivables, prepaid expenses and deposits, accounts payable and accrued liabilities. The fair value of these financial instruments approximates their
